

Sunshine Orchard Christmas greetings update

*God has again provided the funds needed for the 100 acres,
this time we are able to make the final payment!
We are in awe of God's mercy and realize that He is in charge.
He allows us to stand on our tip toes, He brings us to our
knees.*

*In faith we have to hold on to His promises, then He delights
in proving His ability to provide.*

*We have moved forward in faith, we have seen His hand at
work repeatedly, in awe we stand gazing at the simple means
He uses His wonders to perform.*

*In awe we watch as He has chosen to use such useless vessels
such as ours, and we are moved to tears, weeping as again
sacrifices are made by His children.*

Again individuals unknown to us, unexpectedly gave, of what we are sure could have furnished many needs and wants of their own...

At times it was from a divine appointment, or from someone who God had laid the burden of praying, giving, sharing or spreading the need.

We would like to extend a huge thanks to those who have contributed through prayers and or means.

And an especial thank you to the members and friends of the Cle elum church in Washington State as most of the donations for this final payment came from your love and efforts, and it was all inspired from an eleven year old boy who a couple of years ago took on the burden of the "orphans" on the Thai-Burma border.

Anson shared his burden with those willing to listen, his family was supporting him in this and sacrificially has joined him in helping us provide for the children's needs.

Thank you all so very much!

from all of us at Sunshine Orchard
